

Dot

Dot is a collection of side tables that come in two dimensions and different colours, designed to follow the style and the thought of Grupa's lighting fixtures. The metal under-structure provides the strength and character which changes slightly depending on which side you look at it from. Whether as a standalone piece or a combination of two given dimensions of these side tables, Dot is always working for the space it is in. It is made of durable and lightweight materials, steel frame with aluminium top, so it can work both indoors or outdoors.
